

At a time when communicating virtually is considered **a business lifeline** - you want to do it right. As an experienced conference & event management company, **area** provides a one-stop solution for **virtual engagement**. This is not just another webinar - it's an environment that hosts and **delivers dynamic content**. You will be able to **connect and collaborate** with your audience in **real-time** at your next virtual sales conference, product launch, executive meeting, trade-show or special event. It's a platform to deliver outstanding **meaningful experiences - cast by area.**

our **space.**

87% of remote managers believe that remote work really is the future. While some are unsure, only 2% believe that it isn't. Despite whether it is the future or not, almost all of the surveyed managers believe that they will still manage remote teams in their future roles.

Data Source: Remote-How. The Remote Managers 2020 - global report focusing on people leading remote change.

REMOTE WORK IS THE FUTURE
